

reflections memory care **ASSESSMENT**

IS REFLECTIONS MEMORY CARE THE PLACE FOR YOU? The assessment may be your first opportunity to meet and interact with our Executive Director, who is also the building's on site Nurse. The assessment helps create a service plan for Resident Care staff to follow. Our goal is to ensure all resident needs - physical, social, medical and psychological - are met. This plan is fluid and will adapt as your needs change.

WHAT IS THE ASSESSMENT?

Our Executive Director will ask a series of questions relating to your daily activities and personal hygiene and habits. This will help us better understand what assistance you may need on a daily basis.

The Executive Director will also perform a cognitive exam. It's important to remember, this only establishes a baseline for staff to fully understand how you currently process information.

The first step to moving into Reflections Memory Care is scheduling the assessment. There is a one time charge of \$700 and the assessment results are valid for 30 days. Essentially, once the exam is scheduled, we are expecting you will be moving in within the next 30 days. If the assessment is not successful, meaning we don't feel we can safely and adequately meet your needs, we will refund you 75% of the cost. If you choose not to move in, there is no refund.

If you are ready to schedule your assessment, please call Susan O'Dell-Shilton at (269) 969-2500.
